Emlak Konut Diyarbakır Mass Housing Complex

The structural design services for Emlak Konut's mass housing project, in Diyarbakır- Turkey, was provided by Adım Construction. The complex consists of 1.500 family units located on 7 separate lots. The total area of construction is 330.000m². The architectural designer for the project is DB Architects. Two alternative structural load bearings systems were designed for the project; a reinforced concrete frame system and a tunnel form work based shear wall system.
